A reminder: What is the Enterprise Development Programme?

The Enterprise Development Programme (EDP) is a five-year programme, funded by Access – The Foundation for Social Investment. It is managed by a coalition of partners, including multiple infrastructure bodies (sector leads) and Social Investment Business as a strategic grant partner.

Support from the programme enables organisations to grow financial resilience and impact by providing a mixture of grant and learning support to help get enterprise ideas off the ground.

Those interested in applying will have to share details of enterprise ideas or motivations and explain how this idea will benefit your wider organisation, service users and community.

Co-designed packages of support will likely include some of the following:

- A bespoke learning and training sessions co-designed by you and your sector- lead.
- Extensive peer-learning and networking opportunities.
- Pro bono legal expertise to guide you through the legal considerations of trading.
- Pro bono financial expertise to help you develop robust financial management processes
- Opportunities to attend wider-sector learning events.

- The opportunity to apply for a grant to develop your enterprise idea. Grants of up to £30k are awarded, subject to agreed conditions, milestones, and evidence of growing trading income.

What happens in stage 2 of the application process?

The aim of the application at Stage 2 is to:

- Understand more about the services you offer as an organisation
- Understanding your current trading activity
- Understand more about your enterprise idea and why you want to do this
- Understand what research you have carried out on your market and competitors
- Understand what policies your organisation has in place
- Understand what expertise and experience your organisation already has
- Establish what support you might need through EDP if successful
